

Fly Like an Eagle

You are bidding on a glider ride to be conducted at the historic Stanton Airport during the 2010 soaring season (April to October)

**You will be flying in either an ASK21 (pictured above) or the SDZ 50-2 Puchacz
Check out <http://www.patricksaviation.com/videos/j23/1855/>
Fast forward to about 12 min if you don't want to watch the whole video**

The gliders are owned and operated by members of the Minnesota Soaring Club

The flight will be approximately 30-60 minutes in duration depending on thermal conditions that day

Comparable value from a commercial operator is approximately \$135

**If you are concerned about safety and qualifications,
The gliders go through an extensive mechanical inspection each year and
the gliders are pre-flighted prior to each days operation
I posses a commercial glider license with over 25,000 hrs of flying time**

**No frills just thrills...Good Luck!
Jay A. Biggs**
